

RECOMMENCEMENT OF NIFTY COPPER OPERATIONS

Metals X Limited (the **Company**) is pleased to advise that mining has recommenced at its Nifty Copper Operations (**Nifty**) following completion of remedial repairs to the secondary escapeway of the underground mine.

Operations at Nifty were temporarily suspended on 16 August (refer to ASX Announcement 16 August 2017). The 9 day suspension of mine production will result in a corresponding reduction in production for the current quarter and will be further detailed in the September 2017 quarterly report.
